For product registration verification, consumers may contact the Policy, Planning, and Advocacy Division at telephone number 8425606. Consumers are advised to provide details such as the complete product name, registration number, and name of manufacturer or distributor.

[Note: BFAD assigns unique registration numbers for processed food (FR-#), drug (DR-#, BR-#, VR-#, HMR-#, HDL-#), medical device (DVR-#), diagnostic reagent (RR-#), cosmetic (CR-#, CL-#), and household hazardous products (HHR-#). This registration number must be indicated on the label or packaging of products except for some food products.]
